bered his unerring artillery on the nesses in the contest cases. Goebel Contest Committees-but, somehow or another, everything is going wrong at Frankfort.

Some of his admirers have been calling Goebel the Napoleon of politics. Very well; NAPOLEON wound up at St. Helena, and GOEBEL will probably round up in Helena too.

THE Goebel Judge at Frankfort originally required a bond of \$10,000 from Colonel JOHN WHALLEN, charged with having bribed that sweet-scented Democratic Senator HARREL. As the case has progressed, Mr. WHALLEN'S bond has been reduced to \$1,000. The next step will probably be the discharge of WHALLEN-and the damning of HARREL.

It is definitely stated that in the coming National campaign the Democrats will abandon both Free-silver and anti-Expansion, and that their loudest battle-cry will be against Trusts. As the Republicans several years ago took active steps to suppress Trusts by the passage of the Sherman Law, it is about time the sleepy Democrats were waking up. But that's their way-always trying to run the mill with the water that has passed.

THE fact of the state authorities getting after Covington officials for accepting passes on streetcars has aroused consternation among county and city officials in that city. The law provides that-

"It is a surprising fact," says Prof. Houten that in my travels in all parts of the world fo the last ten years, I have met more people having used Green's August Flower than any other remedy, for dyspepsia, deranged liver and stom ach, and for constigation. I find for tourists and malesmen, or for persons filling office positions where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It is a fact that a Tobacco Transplanter will pay for itself in one year on four and one-quarter acres of tobacco.

# Tobacco Growers......

Burley District

Who have experimented with both hand and machine planting are agreed upon this point. REMEMBER that when set by hand the tobacco plant stands still about three days, then it goes backwards about two weeks and then it begins to thrive and grow, provided the weather is seasonable. When set out by a good transplanting machine the tobacco plant thrives and grows from the very moment it is set out, because a large furrow is made into which is dumped a quart of water around the roots of the plant and then dry dirt is gathered up and pressed around the stalk. This prevents ground baking and withering plants. They thrive and grow from the moment they enter the ground—gives you a good stand and an early crop. Prepare ground properly, set your crop with a good transplanting machine and you need fear no frost, for your crop will be earlier than the earliest frosts. Tobacco Growers of the White Burley District who have experimented with different kinds of transplanting machines have all agreed that the

# Nagley is the Best Transplanter Made

I have fifty-seven (57) written signed testimonials from farmers stating that such is the case. I ask you as an especial favor to call at our store and examine this wonderful machine and read these fifty-seven (57) testimonials. Here is one of them from a man that you all know—a big tobacco raiser and one who always gets the top of the market:

"Maysville, Ky., June 20th, 1899.

"This is to certify that I have seen and worked the Bemis, Tiger and Nagley Transplanters, and can cheerfully say that the Nagley will work better and handle easier in all kinds and conditions of ground than either of the others. The Nagley will turn in the (5) feet less of space than any other machine made. The valve of the conditions valve on the Nagley is perfect, always works, never gets out of fix. The plants thrive from the minute they are set out, the best stand of plants I ever saw. My neighbors are all wild over the work of the Nagley. I would not trade my Nagley for a barnyard full of Tiger and Bemis Machines. Signed, Thos. Kubel."

This is only a sample of what they all say. Call and read the rest of our testimonials. THE PRICE FIGHTER, JOHN I. WINTER, has put them within the reach of even the poorest tenant. \$45 will buy the best Tobacco Setter made if you go to the right place to buy it. Tobacco growers, investigate this matter, visit all dealers in all towns and when you learn that their Trust Combination price is \$55 then visit The Price Fighter and he will sell you one for \$45. I, John I. Winter, The Price Fighter, of sound mind, do hereby obligate myself to sell you the Best Tobacco Transplanter on earth for \$45 cash or bankable note.

All I ask is a chance to show you what I have.
